Hi Marietta:

Thanks for asking, but I don't think IVB2 has anything in particular. We had our standing meeting this week with the entire aldicarb team, and finally received HED's comments on the metaflumizone FR last week, which is now with OGC for review. Therefore, we should be in reasonable shape so far as HED is concerned.

That being said, I can't think of any broader topics, with the exception of **Ex. 5 Deliberative Process (DP)**
